TB-BOOT is a rigid, preformed thermoplastic accessory product used as a tie-back head cover with CETCO waterproofing systems. All three different sizes of TB-BOOT, TB-8, TB-10, and TB-6SN, are produced with the same thermoplastic material.

MANUFACTURING LOCATION
CETCO certifies that TB-BOOT is manufactured in Muncie, IN. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1 and Credit 5.2.

RECYCLED CONTENT
CETCO certifies that TB-BOOT is manufactured with 50% post-industrial material recycled content by weight and 0% post-consumer material recycled content by weight.

VOC CONTENT
CETCO certifies that TB-BOOT contains 0 g/L Volatile Organic Compounds (VOCs). EQ Credit 4.1 and EQ Credit 4.2 pertain to materials that are to be used in the interior of the building. CETCO waterproofing products are applied onto the exterior of the structure and therefore are not subject to the intent of EQ Credit 4.1 and EQ Credit 4.2. However, CETCO has provided the volatile organic content (VOC) of TB-BOOT for reference information.

CONSTRUCTION WASTE MANAGEMENT
In areas where facilities exist, the following TB-BOOT materials are recyclable and can contribute to earning MR Credit 2.1 and MR Credit 2.2:
- Wood Pallet  wood  65-lbs
- Box   cardboard  2.5-lbs/Box

CETCO is committed to the use of recycled content in the manufacturing of its waterproofing products and supports the United States Green Building Council (USGBC) by participating as an USGBC Industry Member.
